HUMAN RESOURCES

Club Cartt has a highly skilled team that has made significant contributions to the world of radio control. Their vision and joint effort have been fundamental in shaping the field of radio control, organizing prestigious events that have attracted the best pilots in the world.

One of the great advantages is that we have one of the top track builders at both national and international levels. His strengths include being familiar with a variety of soil types and adversities that can affect the track, allowing him to manage it at any time and during the event so that all drivers can enjoy an optimal track without difficulties.

With over 100 tracks built and extensive experience, we guarantee that a spectacular track, worthy of a European Championship, will be presented.

Over the years, more than 100 events have been held, ranging from social championships to national and international championships with over 2000 pilots. This demonstrates their dedication and experience in the management and organization of high-level RC competitions.

HUMAN RESOURCES

In conclusion, the organizational level of the Club Cartt board of directors is fully capable of hosting the European Championship at their facilities.
