The Section Chairman will investigate the applications and must advise or propose acceptance to the AGM. The Chairman is entitled to reject applications when information is inadequate or unsatisfactory.

Proposal

The venue of the European Championships is to be decided by the EFRA **Section Chairman**, 2 years ahead . **This can either be by evaluating National Association applications or if the applications are deemed not suitable by the Section Chairman then the Section Chairman can select an alternative location.** The applicant National Association must submit all details (as per a to g below) to the valid Section Chairman and the EFRA Secretary by 31st August. The Section Chairman will evaluate the proposed venue **in accordance with the below criteria as well as determine the suitability for the class to be raced - consideration of the local class numbers as well as the geographical location of the venue.** Each application must contain:

- a. The organiser's name, address, fax and telephone number and email address.
- b. A single contact point for all correspondence/enquiries
- c. Diagram of track indicating length, width and direction of racing
- d. Drawing of the venue (preferably photograph) showing track, rostrum, pit area, timekeeping and general facilities

- q. web address of the organizing club

The Section Chairman will investigate the applications and must advise or propose acceptance to the AGM. The Chairman is entitled to reject applications when information is inadequate or unsatisfactory **or the venue is deemed unsuitable for the event/class proposed. At the discretion of the Section Chairman alternative venues need not provide an organisation team as EFRA can elect to convene an organisational team of known personnel to carryout these duties on behalf of the chosen venue. This method would be subject to the relevant commercial arrangements with the chosen venue.**

Remarks

There have been examples in the past where classes have raced at unsuitable locations which resulted in low entry numbers or a generally poor event where drivers struggled or it just was not an enjoyable event. We need to add in forethought and have the ability within the EFRA section to review the proposed venues and even choose an alternative venue within the timescales provided. It should no longer be subject to AGM vote. This also should be expanded to allow the use of certain tracks which are known to be fantastic facilities which are well supported by local drivers of the specific classes and are also Geographically advantageous for drivers to travel to but do not have the current ability or staffing levels available to organize an EFRA event. Words can be amended as required however the general gist of the above rule change is to remove the requirement to propose events and remove the current method of voting in venues by federation vote which sometimes has led to poor choices of venue for a particular class (for whatever reason) or defaulting to a venue when only one venue has been proposed without any alternatives should the proposed venue be deemed unsuitable for the class proposed.

The host Club proposed by the National Association must have successfully organised one Major EFRA sanctioned event, in the last 4 years before the application, preferentially on the proposed track.

If the National Association is experienced in holding EC events and is 100% involved in the organisation of the proposed EC event this requirement could be waived. During the year before a European Championship an EFRA sanctioned event will take place. If an EFRA Referee is present at this event in the previous year before the EC, the EFRA Referee will check that all EFRA Standards are met. If due to any reason, the EFRA Referee finds that required EFRA Standards are not reached he will inform directly on that subject to the EFRA Section Chairman & the EFRA General Secretary. During all EC events, an observer for the organiser of the next European Championship for the specific Section/Class must be present at least 3 days.

An EFRA sanctioned event must be held on the same track minimum two (2) months, maximum four (4) months before the EC. Any of the above requirements can be waived by the EFRA Section Chairman or EFRA Board if it is considered that the organising Club and the National association has the required experience and organising skills.

If IFMAR does not hold a Large Scale Off-Road World Championship event in any year:- Then drivers from other Blocs within IFMAR can apply for EFRA Registration and pay the entry fee directly to EFRA for an entry in the Large Scale Off-Road European Championship event of that year. This only applies to Large Scale Off-Road. (See rule 4.1.3 b which is applicable).

Remarks

Large scale events outside Efra/Europe are often not viable and get cancelled (eg Sydney this year 2024). ~~Final entry list supplied by the Section Chairman, the organiser will allocate pitting spaces so that drivers from the same country pit together, providing the pitting area allows.~~

Remarks

Removal of the drivers pitting by country because most drivers wish to pit where they like and the atmosphere at events where pitting position is open is better. There are also instances whereby some drivers come alone to represent their country and so it is better to have the flexibility to allow them to pit together with whoever they choose such as a manufacturer team area to gain help and support easily. In fact during several EC's in the recent past this part of the rule was ignored in any case.

12. GENERAL DISCUSSION ITEMS

Suggestion

These items are not rule changes and can be placed on the agenda of either the Main Meeting or any Section Meeting for general discussion . Please indicate at witch meeting that you require this subject to be discussed . These items should not be related to rule changes as they will be discussed at the time that they are proposed . In general terms these items should matters that can or have caused concern to the well being of a National federation , EFRA or IFMAR and need to be discussed to ensure that matters are resolved and not allowed to get out of hand .

Suggestion

General Matter 1 : for a EC there must be more than 1 referee , min 2 or 3 (especially for the final runs) and they must be connected via radio to each other . As in real motorsport , there are several occasions where race incidents happens and it was again visible in the EC Lostalio that not all incidents were treated the same . As same incidents must have the same consequence/penalty . It is to reach the highest level of fairness . Additionally it is easier to hand out straight penalties with the following idea . General Matter 2 : On top a drive through penalty is too dangerous and too much for a penalty . Define further penalties which can be given during the race , so every driver has the chance to fight him back into position . E . g penalty lap DTM (touring car championship) , something similar can be defined , a zone out of the ideal line where the driver (in 1 : 5 scale) needs to make a stop and go (1 / 3 / 5 / 10 sec) or like in DTM a offline driving line where he loses time . This area must be defined prior the event between EFRA and the race track . One other option is to make a rule , where the referee can decide to change back position , due to an irregular overtaking .

Suggestion

1.MEDIA COVERAGE.

We are seeing that some National Federations are developing with success their own Media Partner to cover their nationals. In AECAR, we cooperated with success at EURO B in SAX and at IFMAR WC 1/8tt in REDOVAN. We think that this is the way for the future to promote our sport and, on the other side, to try to use the resources of both (EFRA and National Federations) in right way. We are proposing to create a working group or commission to study these ways of cooperation.

2.PENALTIES FOR DRIVERS & MECHANICS in INTERNATIONAL EVENTS..

This year we had an issue with a penalty of a mechanic & driver in a National EVENT but, we couldn't avoid that the mechanic keep out of an International Event. How can manage that? We think is important to work in some coordination EFRA & National Federations to be sure that if someone inside of their national federation is sanctioned with non-participation in a National Events could be also valid for an International EVENT.
